

4-08-03

Hi Wayne & Susan,

It's Joyce at Cedarwood Counseling. I was just looking at your website, great job! I gave (name removed for privacy) your name and number at the CABIP conference last weekend. His program isn't working for him and I was able to share with him how valuable the Beacon program has been to our program. I shared with him how happy we are with Beacon and how accommodating the program has been able to grow with us through the years.

Our ability to track reports & produce yearly reports for Probation which now will be a monthly process, Beacon has proven to be very cost effective. It's ability to multitask several programs with little effort has made it very user friendly.

When I was at the conference I was able to talk with other agencies in the state and it was very apparent how fortunate we are to have Beacon working for us because of it's fluency in handling the domestic violence paperwork. I just wanted to say thank you and tell you how much I appreciate your efforts to producing a quality product that makes my job as the Office Manager very manageable. As a Facilitator, Beacon produces a report that will provide the proper agencies with all the necessary information in a professional format, which reflects the utmost professionalism of our agency.

Thanks Wayne & Susan

Joyce
