

February 03, 2003

To: Wayne Lundy and Susan Saunders

I am so happy we purchased the Beacon Program because it has simplified my workload in half the time. And by doing that I am able to create reports to my convenience, schedule clients for intakes, locate our clients w/past due balances, scan graphics, find any one person who has missed absences and dismissed clients that have violated conditions of probation and/or program. I am also pleased with one on one friendly and courteous technical service that this program has provided for us.

In my opinion, the Beacon is a five star program.
